ZP THERAPEUTICS
making healthcare more accessible

Emerging **SARS-CoV-2 variants of concern** (VOC) have posed a major threat to international health due to changes in transmissibility, virulence, and ability to evade host response. Studies are ongoing in Europe and the Americas to evaluate the effectiveness of current vaccines as well as heterologous vaccine regimens against new VOC, with promising initial data. In Asia, **heterologous vaccine regimens** present a huge opportunity and are currently being used as one of the key strategies to speed up vaccination coverage, while the safety and effectiveness of these regimens still remain a key topic of discussion.

We are honoured to present to you our esteemed speakers who will be sharing their insights, local best practices, strategies to combat this pandemic, and the current position of mRNA vaccines, especially against evolving variants.

FACULTY

Prof Dr Lau Chak Sing, Wallace

The University of Hong Kong,
Hong Kong

Prof Colin Russell

Amsterdam University Medical Center,
Netherlands

Dr Rontgene M. Solante

San Lazaro Hospital,
The Philippines

Dr Ping-Ing Lee

National Taiwan University Children's Hospital,
Taiwan

Prof Dr Terapong Tantawichien

Chulalongkorn University,
Thailand

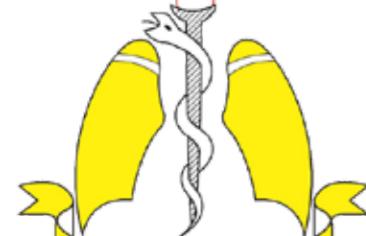

Join us live to explore more on COVID-19 variants, heterologous regimens, and mRNA vaccines

REGISTER NOW

AGENDA

17:00 – 17:05	Welcome & introduction	Prof Dr Lau Chak Sing, Wallace (HK) (Chair) Dr Puchong Padungsutt (ZP)
17:05 – 17:25	Effectiveness of mRNA vaccines towards variants	Prof Colin Russell (Netherlands)
17:25 – 17:55	COVID-19 vaccination program in Asia: Challenges and Sharing <ul style="list-style-type: none">• From the Philippines• From Taiwan	Dr Rontgene M Solante (PH) Dr Ping-Ing Lee (TW)
17:55 – 18:15	Current available data on heterologous regimens	Prof Dr Terapong Tantawichien (TH)
18:15 – 19:00	Panel Discussion and Q & A	Chair & Moderator / All speakers Panelists (PH/TW/TH/HK)
19:00 – 19:05	Summary and Closing	Prof Dr Lau Chak Sing, Wallace (HK) Dr Puchong Padungsutt (ZP)
